

Buddy's is now offering a self-service cooler and checkout system in the SNS building 8600 after its normal operating hours. The self-service cooler and kiosk will be open from 1:15 pm to 6:30 am the following morning. Buddy's employees will not be available or present during this time. The cafeteria will be operating on the Honor System, choose what you like and make sure to ring up each item you wish to purchase, as the items are inventoried every day. While traditional cafeteria style buffet etc. will not be offered, Buddy's will offer a wide variety of the following: sandwiches, salads, soups, side items, yogurts, drinks and desserts. The self-service cooler is located next to the salad bar and behind the drink station. All items have been tagged with custom barcodes (if they didn't have one already, ex. Chips and bottled beverages are already equipped with barcodes) which allows for easy checkout at the self-checkout kiosk. The self-checkout kiosk is for card use only, no cash will be accepted during self-service hours. The self-service kiosk is located next to the register furthest from the microwaves. If you have any issues with checking out please call 574-3932 and leave a message, Brad Wantland, the SNS Manager will call you back promptly the next day.
