YTTRIUM TOXICITY TO HUMANS

Sources Searched:

Biological Abstracts: 1963-February, 1972
Toxicity Bibliography: 1968-June, 1972
Chemical Abstracts: 1936-March, 1972

1971

Erametsa, O.; Sihvonen, M. L. Rare earths in the human body. I. Yttrium and lanthanides in the spleen, *Ann. Med. Exp. Biol. Fenn.* 49(1): 35-7 (1971)
CA75: 17004

1969

Berke, H. L. Metabolism of rare earths following inhalation; pathologic and biochemical response in the lung and other organs, U. S. At. Energy Comm. COD-1630-10 (1969) CA71: 110973

1968

Tebrock, H. E.; Machle, W. Exposure to europium-activated yttrium orthovanadate: a cathodoluminescent phosphor, *J. Occ. Med.* 10: 692-6 (1968) (Exposure of workers to europium yttrium orthovanadate. Experiences with new television color tube phosphors are presented)

1965

Haley, T. J. Pharmacology and Toxicology of the Rare Earth Elements, *Journal of Pharmaceutical Sciences* 54(5): 663-69 (1965) (Review of pharmacology, toxicology, and clinical application of stable and radioactive rare earths. These elements have a low to moderate toxicity rating.)

Talbot, R. B.; Davison, F. C.; Green, J. W.; Reece, W. O.; Van Gelder, G. Effects of subcutaneous implantation of rare earth metals, U. S. At. Energy Comm. COO-1170-1 (1965) CA63: 13919e

1964

Hidetsuru, M. Relation between physicochemical properties of metal cations and their acute L. D. to rabbit, rat and mouse, *Ind. Health* 2(1): 1-10 (1964) (Eng) CA62: 12357a

1963

- Magnusson, G. The behavior of certain lanthanons in rats, *Acta Pharmacol. Toxicol.* 20(3): 95 pp. (1963) CA60: 16403f (Intravenous administration; concentration in various organs; differences between male and female rats; acute toxic effects from nonradioactive Y, Ce, Tb, Ho and Yb)
- Bienvenu, P.; Nofre, C.; Cier, A. Comparative general toxicity of metallic ions. A relation with the periodic classification, *Compt. Rend.* 256: 1043-4 (1963) CA58: 10648a

1962

- Mogilevskaya, O. Y.; Mezentseva, N. V.; Roshchina, T. A. Toxicity of lanthanum, neodymium, yttrium, cerium, europium, samarium, dysprosium, and gadolinium, *Prom. Toksikol. i Klinika Prof. Zabolevanii Khim. Etiol.* Sb 171-2 (1962) CA61: 3604f

1956

- Towsey, J. The localization of yttrium in bone, U. S. Atomic Energy Comm. ORINS-12: 311-22 (1956) CA51: 1476i (deposition occurs in bone surfaces rather than mineral or organic matrix of bone. Removal by chelating agents)
- Laszlo, D. Biological studies on calcium, strontium, lanthanum, and yttrium, *Proc. Intern. Conf. Peaceful Uses Atomic Energy, Geneva, 1955* 10: 62-7 (1956) CA52: 5613c (review)

1955

- Hara, S.; Sato, J. Anticoagulant action of rare earth metals, *Pharm. Bull.* 3: 84-7 (1955) CA50: 4394f (in vitro and in vivo experiments. Effects of rare earth metals on prothrombin and its activation to thrombin. Damage to liver)

1953

- Stokinger, H. E. Size of dose - its effect on distribution in the body, *Nucleonics* 11(4): 24-7 (1953) CA47: 8902b (Size of dose and amount of carrier element given with radioactive element effects distribution of tracer element in body. Data for Be, Ag, Th, Y, and U. Retention by tissues.)

1952

- McDonald, N. S.; Nusbaum, R. E.; Alexander, G. V.; Ezmirlian, F.; Spain, P.; Rounds, D. E. Skeletal deposition of yttrium, *J. Biol. Chem.* 195: 837-41 (1952) CA47: 10706c (Intraperitoneal YCl_3 . Toxic effects not obvious)

1950

- Cochran, K. W.; Doull, J.; Mazur, M.; DuBois, K. P. Acute toxicity of zirconium, columbium, strontium, lanthanum, cesium, tantalum, and yttrium, *Arch. Ind. Hyg. Occupational Med.* 1: 637-50 (1950) CA44: 8516c (Yttrium relatively nontoxic following intraperitoneal injection. Experiments on rats)
