

# Nathan Pollesch

*Graduate Research Assistant,  
Center for Bioenergy Sustainability  
Oak Ridge National Laboratory, Oak  
Ridge, TN  
Department of Mathematics, University  
of Tennessee-Knoxville, Knoxville, TN*

Nate is a Ph.D. candidate in the Department of Mathematics at the University of Tennessee-Knoxville with an emphasis in Mathematical Ecology and Energy Science and Engineering. He earned his Master's degree in Applied and Computational Mathematics from the University of Minnesota-Duluth in 2011, and since beginning work with the CBES group at ORNL in 2013, his research has focused on the development of mathematical and statistical tools to aid in the assessment and sustainable management of bioenergy production systems.
