

Award Winner

NextAire Packaged Gas Heat Pump

The technology results in significant reductions in peak demand for electricity, energy costs, and environmental effects, especially through reductions of greenhouse gases, environmental pollutants, and water use.

Developed and jointly submitted by
Oak Ridge National Laboratory
Southwest Gas Corporation
IntelliChoice Energy

Sponsored by
US Department of Energy Industrial
Technologies Program
US Department of Energy National
Energy Technology Laboratory

Recipients (l-r, back row): Isaac Mahderekal, Randall Linkous, Randall Wetherington,
Patrick Geoghegan (l-r, front row) Abdolreza Zaltash, Ed Vineyard
