

International Committee on Irradiated Concrete, Nagoya Japan, 7-10 November 2016

8 June 2016

Dear Colleagues,

You are cordially invited by the Executive Committee of the International Committee on Irradiated Concrete (ICIC) to participate in the Second General Meeting of the ICIC in Nagoya, Japan, on 7-10, November 2016.

As you may know, the ICIC was formed to provide a forum for broad technical interactions in research on the effects of irradiation on concrete used in nuclear applications, such as nuclear facilities, storage, and disposal sites, and which will contribute to advancing the current state of knowledge. Like the framework meetings held in Barcelona (March 2014) and Helsinki (October 2014), and the first general meeting in Knoxville (November 2016), all participants will have an opportunity to present updates on their work on or related to irradiated concrete. These updates may vary from detailed discussions of new results or brief updates or summaries of their activities. And since this meeting is expected to attract additional participants, the new participants will be encouraged to present a broader discussion of their previous, current, or proposed activities on irradiated concrete.

General Meeting Guidelines, as defined in the ICIC Charter, and restrictions on dissemination of information are listed below.

1. Structural Performance & Mechanistic Understanding of the Effects of Irradiation on Concrete (Dr. Yann Le Pape, ORNL, USA).
2. Accelerated Irradiation Studies of Concrete and its Components (Dr. Michal Koleska, RC-Rez. Czech Republic).
3. Characterization of Irradiated Concrete and Harvesting and Characterization of Service Irradiated Concrete (Dr. M. Ordonez, ENRESA).
4. Long-term Reliability of Concrete in Irradiation Environments (HLW Storage / Disposal Issues) (Dr. Ferreira, VTT, Finland).

Meeting Details:

Meeting Web Page:

Hotel Accommodations: Recommended hotels are:

- Nagoya Marriott Associa Hotel
- Hilton Nagoya
- Nagoya Kanko Hotel
- Crowne Plaza ANA : Grand Court Nagoya

Trip adviser may help you: https://www.tripadvisor.com/Hotels-g298106-Nagoya_Aichi_Prefecture_Chubu-Hotels.html

Meeting Dates:

- 7 November 2016 - 10 November 2016

Meeting Deadlines:

Revised Registration Deadline: 2 October 2016

Meeting Outline:

Monday, 7 November (afternoon):

Executive Committee Meeting (ICIC Officers and Technical Area Coordinators)

The Executive Committee will meet to discuss issues that may need to be shared or discussed with the ICIC members.

Tuesday, 8 November:

ICIC Open and / or Closed Technical Meeting (TBD)

Technical presentations grouped into Technical Area sessions and chaired by the Technical Area Coordinators.

Evening (optional) Social Event: Meeting Dinner

Wednesday, 9 November:

Travel to Hamaoka site (Chubu Electric Power Company, CEPCO) for tours (Please note that Passport and other related personal information is required in advance): decommissioning plants Hamaoka Unit 1 and 2; construction of tsunami protection wall; Exhibition Center; and concrete research of Hamaoka Unit 1.

Lunch is scheduled at Hamaoka site.

Thursday, 10 November:

ICIC Business Meeting to select the site of the next meeting, and officers followed by ICIC

Closed Technical Session and Final Technical Session Summaries

Meeting adjourns by ~ 15:30.

Best regards,

Ippei, Yann, Miguel, and Tom
