

# 2006 Award Winner

## Metal Infusion Surface Treatment

### Developed by

Front (left to right) Edgar Lara-Curzio, Mark Deininger, Eddie Hatfield, Gail Ludtka, Vinod Sikka, Chaitanya Narula, Harry Meyer III, Gerald Jellison, Randy Howell, Craig Blue, and Peter Blau. Up the stairs (left) Robbie Peascoe, Gerard Ludtka, and Tom Watkins (right) Wally Porter; John Truhan, Jr; Arvid Pasto, and Larry Allard.

### Surface-Treatment Process

MIST can infuse up to fifty-one elements into the surface of metals and alloys, and then secure these elements with a thin-nanostructure coating.

Sponsored by

U.S. Department of Energy's Office of Energy Efficiency and Renewable Energy, Industrial Technologies Program, and FreedomCAR and Vehicle Technologies Program
