

INFORMATION SYSTEM CERTIFICATION FORM FOR HIGH CONTROLS (April 2014)

UT-Battelle Subcontract Number: _____

Prior to commencement of work under this Agreement, the Seller must (1) submit a copy of its Authority to Operate (ATO) at the classification level and category required for this Agreement and the certification shown below and (2) obtain approval from ORNL Cyber Security through the Company's Technical Project Officer.

Information System Certification

I, the Cognizant Seller Authority, to the best of my knowledge, certify that the security controls on the Seller's information system and media meet the security specifications for operation within applicable federal requirements for classified security controls under the accrediting authority (e.g., DOD, DOE, DHS, NNSA). If there are any significant changes to the Seller's security posture, if the security configuration of the Seller's information system is significantly modified after this certification, or if the security category of the information increases from the level approved by Company, I will notify the Company of the changes and submit a revised Authority to Operate to the Company.
